

# LargePharma

Big pharma firms look to us for to provide clinical-regulatory strategy and guidance in tandem with our clinical services. We are able to provide complete clinical services that include study design, study conduct, and site support for phase 1-4 clinical trials. We also provide regulatory and marketing services, including FDA meeting requests and letters, medical writing and website development.

## The Ora Advantages

1. On-time study completion
2. Knowledgeable staff
3. Strict protocol adherence

Ora stands apart from all other research groups in that we have conducted over 1,300 clinical trials and consulting projects within the ophthalmology category. This deep knowledge and expertise has made Ora the preferred ophthalmic drug development partner for many of the top ophthalmic pharmaceutical companies in the world.
